Accommodation would be arranged by the Institute to the outstation presenting authors only, on prior request subject to availability.

Location:-

Ajmer is well-known all over India as a historical and religious place of pilgrimage as well as an educational hub. It owes its reputation partly due to the Regional institute of Education. The Institute is popularly known as Regional college of Education by the common Public of the city. It is located on the periphery of the Anna Sagar Lake. On one side of it is Capt. D.P. Choudhary Marg and on the side is the Pushkar Road. The distance of the Institute from Ajmer Railway station is 6km and from city Bus Stand is 6 km. Auto & Taxi are available from both places. Ajmer city is well connected with the trains from major cities of the country.

Seminar E-mail: nspe2022riea@gmail.com

About The RIE Ajmer:-

The National Council of Educational Research and Training (NCERT), since its inception, has been contributing for improvement of school education in the country, The council, through its constituent units including Regional Institutes of Education, is supporting States and Union Territories (UTs) for qualitative improvement in education by way of variety of activities like curriculum development including textual material development, capacity building of in-service teachers, preparing prospective teachers and teacher educators, conducting educational surveys, extension activities and research. Regional Institute of Education, Ajmer formerly known as Regional college of Education supports the States and UTs of northern region of India in meeting their educational needs. The Institute is committed to improve the quality of education and human values. The Institute is affiliated to the Maharshi Dayanand Saraswati University, Ajmer and its programmes are recognised by NCTE, New Delhi. It is controlled and managed by the NCERT.

Population Education**Introduction:-**

The population education deals with the educational process to spreading the knowledge and awareness about population. The population, a collective group of organisms of the species occupying a particular space, has its own unique characteristics. which are:-

- (i) Size and Density. (ii) Dispersion.
- (iii) Age Structure. (iv) Natality (Birth Rate).
- (v) Mortality (death Rate) and (vi) Life Tables.

The National Seminar on population Education has been planned to provide a platform to all stakeholders working in the field of population Education from different disciplines to share their experience, researches, innovative practices and their impact in improving the quality of school education. This would help in giving direction to the curricular and pedagogic reforms for developing the emerging Indian society.

OBJECTIVES:-

1. To provide a forum to the different academicians, scholars, researchers, students, teachers, and teacher educators to share their research work in population education, innovative practices, and emerging trends in multi disciplinary education.
2. To make recommendation for further course of action for the promotion of quality multi disciplinary population education in the country.
3. To document the good practices and researches in the field of multi disciplinary education and to disseminate these with all stakeholders.
