

**Programme Outcomes and Course Outcomes for all programmes offered by the institution are stated, displayed and communicated to teachers and students**

Outcomes of the programmes and courses offered by the Institution are duly stated and displayed on the Institutional website and thoroughly communicated to teachers and students for preparing the feedback and accordingly providing constant improvements through interventions.

As all the courses are annual, two internal tests are conducted and assessment results are shared with students as part of the feedback and accordingly, interventions are provided for constant improvement. Presentations by students on the assigned themes are organized, assessed and feedback is provided. At the end of the session, an external examination is conducted by the MDS University.
